

www.swedishchamberofcommerce.at

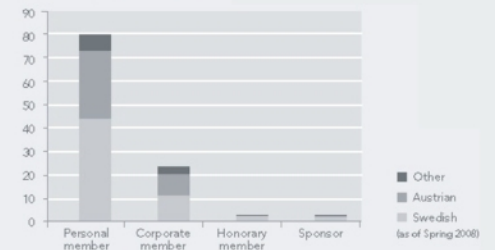

The Swedish Chamber of Commerce is the driving network hub for Swedish and Scandinavian related professionals in all stages of their life and their associated corporations.

- A gathering point for members with business interests in Austria
- A bridge between Austrian and Swedish industry
- One of the corners in the Swedish Triangle in Austria
- Reaches more than 1000 Swedish-connected people in Austria
- A visible and competent organization to get around in Austria

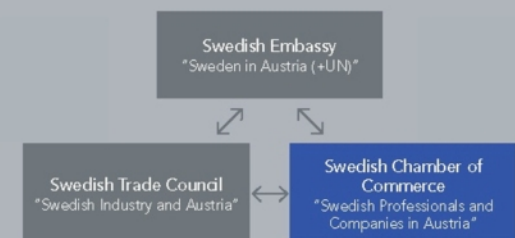

The Swedish Chamber of Commerce at a glance:

Membership Distribution

The Swedish Triangle

"In Austria, the **Swedish Embassy** represents Sweden in all formal and official matters. The **Swedish Trade Council**, a commercial consultancy operation with official status, represents the interests of Swedish industry in Austria, offering them commercial advice on their respective activities. The **Swedish Chamber of Commerce** in Vienna, a non-profit organization, represents the interests of Sweden related professionals and their respective companies, offering them a relevant network of peers and interests. The three parties actively agree to the above and coordinate accordingly."

The Swedish Chamber of Commerce in Vienna aims to be the leading network hub for Swedish and Scandinavian related professionals. Besides providing its significant and relevant knowledge to its members, the Chamber organizes many exciting events, where accomplished personalities from business and politics offer their perspectives on interesting issues. In addition to these events, the "Young Professionals" meet at after work cocktails to mingle. The Chamber is a membership and sponsorship financed non-profit organization based in Vienna, but is active in all parts of Austria and sometimes in the Central European neighboring countries.

Some of our Activities:

Swedish Management Forums where accomplished individuals present current matters from business and politics; Dr. Klaus Raidl, Böhler Uddeholm – Lars Jarnheimer, Tele2 are some examples

Swedish Round Tables are excellent occasions for members to present themselves; Ericsson and Stora Enso hosted the Chamber recently

The Lucia dinner, one of the main recurring Swedish-Austrian events in Austria, is arranged by the Chamber every December

The Royal Wiking Floor Hockey Cup is held every spring and hosted by the Chamber

Numerous social events, such as Wine Tastings, Kräftskiva, and Young Member Cocktails are organized. We also want to be a meeting place for the job market, offering match-making opportunities on our homepage

The Chamber was one of the leading organizers of the visit of the King of Sweden in 2007

The Swedish Chamber of Commerce is one of the three initiators and organizers of the "Security Challenge", a seminar for the security industry in 2008, jointly organized by the Swedish Embassy and the Swedish Trade Council as a part of the focus of Swedish EU-Presidency in 2009
